EDUCATION

2024-2028

NATIONAL UNIVERSITY OF SINGAPORE

- Bachelor of Science in Computer Science Minor in Entrepreneurship

SKILLS

- Communication
- Leadership
- Adaptability
- Teamwork
- Time Management
- Public Speaking
- Event Planning

PROGRAMMING LANGUAGES

- Python, JavaScript, HTML/CSS, SQL, Git, C, Java
- FastAPI, Pandas, NumPy, Google Colab, Jupyter, Figma

PROFILE

Computer Science undergraduate at NUS with a growing interest in AI applications for real-world systems. Familiar with machine learning fundamentals and experienced in data handling, prompt structuring, and collaborative tech projects. Skilled in Python and basic model validation, with a proactive mindset and strong communication skills. Excited to apply AI technology to business processes in fields like accounting and operational efficiency.

EXPERIENCE

- **Antree** 2025 - Present
Front End Developer
 - Developed a queue management system using React, focusing on improving usability and user flow.
 - Contributed to UI implementation and component design to support a scalable, real-time platform.
- **Google Developer Group (NUS)** 2024 - Present
Internal Tech Workshop
 - Supported internal workshop operations and logistics to promote knowledge sharing in developer communities.
 - Assisted in reviewing submissions during Hack4Good, ensuring projects met technical requirements for evaluation.

ACHIEVEMENT

- **NUS Fintech Hackathon** 2025
3rd Winner
 - Developed an AI model to detect fraudulent blockchain transactions using Python and FastAPI, focusing on anomaly patterns and risk indicators.
 - Worked in a team of five under the Northern Trust challenge, contributing the AI component to a fintech solution aimed at enhancing transactional integrity.
- **ASEAN Scholarship Awardee** 2024 - Present
- **13th ALSA UNDIP Speech Competition** 2023
1st Winner
 - Achieved first place in a competitive national speech competition, demonstrating strong communication, critical thinking, and structured argumentation.
 - Represented my institution and prepared extensively through research and feedback, gaining confidence in presenting and defending complex ideas.

CERTIFICATE

- **Sololearn: Introduction to C** 2025
- **Sololearn: Introduction to Java** 2025
- **CS50 Introduction to Computer Science** 2024
